Many video game players, specifically those of the racing genre, are unable to play games online without human verification. This verification requires a user with an active EA account to activate their copy of Need for Speed Underground 2 (V1.2) on the PC with a CD key that is registered by another active EA account that can verify that they are not using any software hacks or programs that will cheat during the online multiplayer gameplay. This method has been widely accepted and implemented due to its security and ease of use, which has led many players to be unable to play certain games released after this time period because they do not have an adequate way of verifying their copy is legit and does not contain cheating software or exploits. This article will provide a quick, easy, and free way to remove the CD key verification from your copy of Need for Speed Underground 2 (V1.2) on the PC in order to play online without human verification. You will be able to connect with other players and join any active lobbies with no issues. Download this zip file containing the fix here: https://mega. nz/#!KlFDUZzZ!mE9bMg6NL9NRUSQQeFvkZpqR-GK1lSlUxm6u3zvpVI Extract the contents of the zip file to a location on your computer. There should be two files: "Need For Speed Underground 2 [MEBP].exe" and "MEBP.exe". The MEBP.exe file will need to be placed in the same folder as Need For Speed Underground 2 (V1.2). The Need for Speed Underground 2 (V1.2) Max Payne 3 Fix will also require a file named "FullGame. exe". The location of both of these files is dependent on the specific computer platform you are playing this game on. It is our recommendation to play this game off a hard drive as opposed to a USB flash drive as it will be easier to extend the life of your hard drive and reduce wear and tear on your system. In order to play Need for Speed Underground 2 (V1.2) after installing the fix, you will need to run "FullGame.exe". This file will launch and let you choose between two options: Max Payne and Need for Speed Underground 2 (V1.2). The Max Payne option contains an autoboot function that can be used by pressing F8 during boot-up. The option to play Need for Speed Underground 2 (V1.2) will be sent to your desktop. You can safely close this option without issues or risk of having the game stuck in a state, however, you may want to save this file until after you have played Need for Speed Underground 2 online successfully. Need for Speed Underground 2 (V1.2) requires internet access in order to be played online using the game's built-in tools. If you would like to play the game offline, there are several ways that can be done without downloading any additional files or troubleshooting further:

It is important that when playing online, all players verify their copy of Need for Speed Underground 2 (V1.
